## RESUME

- Final-year engineering student in computer science, specializing in data and AI, seeking to join a Master's program in Finance & Data starting in Fall 2025. With several experiences in data analysis, I aim to combine technical skills with financial expertise to grow in quantitative finance or data-driven finance.
- 

## WORK EXPERIENCES

**Patent Data Analyst in training – THALES CBI, Meudon, France** **Oct 2022 - Sep 2025**

- The work was conducted entirely in English, as I collaborated with an international team and had a Spanish supervisor.
- Conducted a comprehensive analysis of the patent portfolio to identify potential patent infringements.
- Collaborated with cross-functional teams to review patent applications and draft clear, concise reports.
- Implemented data-driven strategies to optimize patent search methodologies.

**Data Intern - SAFRAN USA, Cincinnati, USA** **Jun 2024 - Sep 2024**

- First work experience abroad
- Structured and analyzed large datasets from internal databases to extract actionable insights.
- Developed dashboards and reports to visualize data for performance analysis.
- Created automation scripts for supplier dashboards related to aircraft parts orders.

**Intern support IT Exponens, Paris, FRANCE** **Apr 2022 - Aug 2022**

- Assisted the IT support team in troubleshooting hardware and software issues.
  - Collaborated with the team to improve efficiency in ticket resolution processes.
- 

## EDUCATION

**Master degree in Computer Science with a specialization in Artificial Intelligence and Data in training** **2022 - 2025**

CESI Ecole d'ingénieurs

- Studied various computer science topics including networking, cybersecurity, and software development.
- Specialized in artificial intelligence and data through a dedicated data science project.

**Integrated Preparatory Class at Engineering School** **2020 - 2022**

CESI Ecole d'ingénieurs

- Two-year undergraduate intensive course in science, mainly mathematics, physics, and mechanics.
  - Learned various programming languages.
- 

## SKILLS AND OTHERS

- **Technical Skills:** Project management, Structural analysis, Autonomy, Teamwork, Data expertise, Critical thinking, Decision-making
- **Languages:** French (Native), English (Bilingual), Spanish (Intermediate), Japanese (Basic)
- **Certifications:** TOEIC B2, CISCO Certification
- **Hobbies:** Tennis, Finance, Travel, Music, Technology, Space
